Professional Summary

- Versatile Data Science and Information Management professional with 7+ years of experience leading enterprise analytics, data engineering, and database modernization.
- Led cross-functional teams of 14+ members delivering scalable data pipelines and cloud analytics tools.
- Bridges technical execution with executive strategy to drive data-informed decision making.

Experience

TECHNOMICS, INC. | Senior Analyst | Aug 2021 – Present

Project Management Leadership:

- Led enterprise data science and analytics initiatives for federal, defense, and international clients.
- Managed Agile/Kanban teams of up to 14+ members.
- Directed sprint planning, code reviews, and technical mentorship.

Data Science Engineering:

- Migrated legacy MS Access systems to DuckDB and R-based pipelines.
- Optimized SQL/R queries and validated data pipelines for modeling accuracy.
- Built prioritization models using Python and Palantir Foundry.
- Automated Excel-heavy reporting workflows using R and Python.
- Implemented Git/GitLab version-controlled data extraction workflows.
- Developed BI dashboards tracking cost growth and engineering change trends.

Training Organizational Impact:

- Led Data Analytics certification program for 1,200 personnel.
- Developed training modules in statistical sampling and enterprise data systems.

KCIC, LLC | Senior Data Analyst | Mar 2019 – Aug 2021

Database Engineering Analytics:

- Built optimized SQL views, stored procedures, and indexes improving query performance.
- Developed SQL + Excel reporting pipelines for large claims datasets.
- Designed validation systems ensuring data integrity under strict deadlines.

Process Improvement Training:

- Standardized analytics training programs across analyst teams.

Education

- Professional Certificate in Data Science — Montgomery College (2019–2020)
- B.A. Economics, Government Politics — University of Maryland (2013–2017)

Core Competencies

Leadership: Agile, Kanban, Project Management, Stakeholder Engagement

Data Science: Python, R, Statistical Modeling, Visualization

Data Engineering: SQL, ETL/ELT, DuckDB, MongoDB

Tools: Power BI, Git, Excel, Palantir Foundry
